

- Each slot machine can lead to either of the two banknotes, however, the **chances** that a given **slot-machine** provides a given **banknote** are different for the different slot machines.
- Making good decisions in the task will require **learning from your experience** the chances that each slot machine tends to produce either banknote.
- The chances that a given slot machine provides a given banknote will **not change** over the course of the task.
